

I urge you to reject petition 04-160 as put forth by the National Association of Broadcasters (NAB). I have chosen through a conscious decision to subscribe to satellite radio services. I enjoy the variety of services satellite radio provides, in addition to the high quality of programming. NAB should not be able to determine what I should be allowed to hear, for services I wish to pay for. Please protect my freedoms as protected by the First Amendment that provide consumers choice in the marketplace and reject petition 04-160
Sincerely,

Brian Hickox
